

Product Safety Recall

Do you own this product?

Total Tools – Michigan 25L/min flowmeter argon single gauge

Argon flowmeter connects to a gas bottle to measure gas flow when welding.

Recalled products match the photograph and were sold exclusively by Total Tools stores. The model FLW801FL4 or brand Michigan can be found on the manual and packaging.

Dates sold:
13 January 2017 – 13 February 2023

Why the product is recalled: If the regulator fails, high pressure gas may enter the flowmeter and cause the plastic cap to be ejected.

Hazard: Risk of serious injury if the flowmeter plastic cap is ejected and hits the user or someone nearby.

Stop using the flowmeter and return to your closest Total Tools store for a full refund.

Ask our staff to find out more about the recall.

For more information, contact Total Tools by phone 03 9261 1900 or email Recalls@TotalTools.com.au

Purchased from: Total Tools stores and Total Tools online store.
